

RP FLETCHER MACHINE CO.

FM-45 SB.

FM-45 SINGLE SIDED EDGE BANDER - SHORT BASE

The FM-45 is the single-sided, high production model that utilizes the same basic feed chain, holddown, and precision components that have been successful for years. Virtually all components on this machine excluding electric motors and castings are produced in our factory in Lexington, NC.

Installation quoted separately, FOB shipping point, Delivery immediate subject to prior sale
