

# Sweed Bundle Turner

Sweed's Bundle Turner is an excellent option for facilities processing loads up to 5,000 lbs and 5' wide by 10' long. The unit is very compact, taking up less floor space than the standard C-Turner yet performing the same function as the much larger Sweed Rotating C-Turner. This turner has an open design; all of the operating components are within easy reach for inspection, maintenance and repair.

- Capacity ..... 5000 lbs.
- Cycle Time ..... 20 seconds
- Overall Stroke Length ..... 26"
- Max Height ..... 50"
- Minimum Height ..... 24"
