PERFECT ALIGNMENT EVERY TIME...

MLG SERIES GREEN LIGHT LASER

The MLG series are green laser line generators that are 8 times more visible than a red line laser of equivalent power. These lasers are designed to withstand heat, moisture and harsh environments where a clear line is needed. This industrial laser offer the widest operating temperature range.

Highlights

- Green laser line generator
- Output power up to 20mW
- New and unique: Widest operating temperature range (-4°F to 113°F) (-20°C to 45°C)
